New Inspection Fee for Commercial locations in National City

On October 2, 2018, the City Council of the City of National City approved an updated User Fee Schedule based upon the actual cost to provide Fire/Life Safety Inspections. An inspection fee will now be added to the cost of a new Business License Application and to annual business license renewals if you have a commercial address. The fee is calculated based upon the square footage of the building your business occupies or by the number of beds, if you are the owner of a healthcare facility.

Fees shall be added to your overall new business license application or in the case of existing businesses, to your annual renewal fee in accordance with the schedule below:
