**Disclaimer**  
This document and the related spreadsheet were prepared for the U.S. Environmental Protection Agency (USEPA) in conjunction with the City of National City, California and are provided as final documents. Tierra West Advisors, Inc. has relied upon outside sources for information and data presented in this report and related spreadsheet. Although all best efforts were used to confirm information and complete this report and related spreadsheet, no representation or warranties are made as to the timeliness, accuracy or completeness of the information contained herein or that the actual results will conform to any projections or recommendations contained herein. Tierra West Advisors, Inc. holds no responsibility for how the process outlined in this document and related spreadsheet will be implemented on a community-wide or site-specific basis. Any reliance upon this material shall be without any liability or obligation on the part of Tierra West Advisors, Inc.

The ranking process and spreadsheet described in this document are intended for the purpose of ranking properties with nonconforming uses and identifying properties for the development of recommendations on amortization and timing of amortization. The ranking process outlined in this document has been tested by National City to determine if the resulting property ranking is consistent with the expectations of National City. This testing included the evaluation of the impact of each factor and sub-factor and their weights on the overall ranking. The final documents reflect the comments and inputs of National City and of business stakeholders consulted in a meeting hosted by the Chamber of Commerce on January 26, 2011. It is recommended that the factors and sub-factors used and the scores and weights assigned to these factors and sub-factors not be changed once the spreadsheet is used to rank properties in order to ensure consistency in the property ranking process.
